

 **DODGE** CALIBER

Bold Distinctive Styling

Dodge Caliber's muscular bonnet and large crosshair grille are unmistakable hallmarks of the Dodge brand.

- Broad shoulders and assertive bonnet curvature.
- Large headlamps and tail lamps.
- Sweeping roofline enhances vehicle stance.

Aggressive Wheels and Tyres

Standard 17" wheels wrapped with performance tyres and optional 18" wheels complement the sporty stance.

Premium Interior Appointments

- Standard low bucket seating with optional leather upholstery.
- Available Sport Appearance Interior with colour keyed cloth seat inserts, colour keyed instrument panel and gear lever trim accents.

Air Bags

As standard equipment, Caliber features next generation multistage driver and front passenger airbags. Multistage air bags use dual-stage inflators to provide an appropriate level of restraint depending on the severity of the impact. Multistage technology helps Caliber's air bags absorb the forces associated with frontal impacts while reducing the potential for injury during low-speed collisions.

Full length side curtain airbags which are also standard provide side impact protection to front and rear seat outboard occupants.

Available Electronic Stability Program (ESP)*

ESP uses electronic brake and throttle controls to aid the driver in maintaining directional stability. ESP will do whatever can be done, within the limits of available traction, to keep the vehicle on its intended course.

**Available on diesel models only.*

Cargo Cover

Caliber comes equipped with a removable roll away soft cargo cover designed to keep items in the rear cargo compartment out of sight.

Four Wheel Disc Antilock Brakes

Designed to prevent brake induced wheel lock up during severe braking manoeuvres, ABS automatically pumps up the brakes many times per second in potential lock up situations to provide optimum stopping power with the steering control provided by ABS.

ISOFIX/LATCH

For added piece of mind, all Dodge Caliber models feature user ready child seat lower anchors and top tether anchors for rear seat positions. These anchors help improve the overall performance of compatible aftermarket child seats by minimising their movement.

Seat Belts

- Three Point Lap / Shoulder Belts for All Occupants
- Front belts feature height adjustability with pretensioners and travelling buckles.

Sentry Key Theft Deterrent System

The Sentry Key engine immobilizer uses an electronically coded engine key that incorporates an embedded transponder with a pre programmed security key code. When the key is inserted into the ignition, the controller sends a random number to the transponder and the engine management system is allowed to crank and start the engine.

PERFORMANCE

Petrol and Diesel Powetrain Options

1.8 litre and 2.0 litre World Engine petrol engines offering 110kW and 168Nm of torque or 115kW and 190Nm of torque, respectively.

Both engines have dual Variable Valve Timing (VVT). By controlling the camshafts of the engine, the engine's timing is continuously tuned to deliver maximum power or optimal fuel economy depending upon the demands at that moment.

The benefits of constant variation are not solely applicable to engines: Caliber offers the Continuously Variable Transmission (CVT2) with the 2.0 engine. This engineering masterpiece delivers a smooth ride and remarkable efficiency. By increasing or decreasing the distance between the two sides of a pulley, the Continuously Variable Transmission (CVT2) creates a gear ration that is ideally suited for that very instant.

2.0 CRD turbo diesel engine provides 103kW and 310Nm of torque.

Caliber offers a diesel engine that features proven technology and delivers outstanding performance and efficiency. The 2.0 turbocharged engine employs a state of the art direct injection system, which means that the Caliber can operate at very high pressures to deliver optimum fuel efficiency. Paired with the close ratio six speed manual transmission, this combination stretches a litre of fuel a remarkable distance while providing stunning power, torque and towing capacity.

Nimble Handling

Firm feel power rack-and-pinion steering system complements four wheel independent suspension and multilink rear suspension.

Transmissions

- Six speed manual combined with 2.0 CRD turbo diesels yields excellent acceleration and economy.
- Five speed manual coupled with 1.8 petrol engine.
- Continuously Variable Transmission (CVT2) standard with 2.0 petrol engine for optimum smoothness and efficiency.

Caliber provides a generous 2696 litre interior passenger volume and standard 5 passenger seating.

Versatile

The standard 60/40 split folding rear seats features single action folding for unparalleled ease of conversion. A simple pull of a nylon strap fully releases the seats, so that they can be easily folded down to a nearly flat load floor.

Adaptable

The front passenger seatback folds flat to enhance the ability to haul large cargo. Combined together, Caliber provides remarkable cargo carrying possibilities.

Durable

Caliber's flat load floor features an Ultrafloor panel. This precision moulded vinyl floor is both removable and washable. Like the rest of Caliber's ready-for-anything interior, it was designed to provide the degree of toughness people have come to expect from a Dodge.

CONVENIENCE

Full Length Centre Console

Features a number of innovative convenience features, incorporating a sliding armrest, cubby bin that holds up to 10 CD's and a flip pocket for holding an MP3 player.

Removable, Rechargeable Cargo Area Flashlight

Handy illumination always at the ready, the cargo lamp illuminates the rear cargo area. When duty calls, the torch can be detached, used, and then returned to its cradle for recharging.

Chill Zone*

Simply smart, the Chill Zone beverage storage bin features a contoured PVC mat to hold four cans, four bottles or a picnic of snacks and drinks. It maintains already chilled items at about 7 Celsius.

**Included with Air Conditioning only.*

Illuminated Front Cup Holders

Caliber's centre console was designed to accommodate on every level, not least of which is its ability to accommodate something like a cooled drink from your Chill Zone. Whether it's a bottle, can or cup o coffee, Caliber's cup holders surround your beverage with a soothing blue illuminated glow.

Sound Systems

- AM/FM Radio with Single CD player.
- All sound systems are MP3 compatible.
- 458 watt Musicgate Power Option – this optional Boston Acoustics nine speaker sound system includes a built in subwoofer and features rear speakers that can swing down from the open rear hatch.
- Optional steering wheel mounted audio controls.
